

Roberto Morabito

roberto.morabito@ericsson.com

- Currently working for Ericsson Research Finland
- Involved in the FP7 ITN METRICS Project
- PhD Student for Aalto University
- Research Interests
 - (Lightweight) Virtualization Technologies
 - Different application domains (IoT, Vehicular, SDN)
 - Edge Computing
 - Performance characterization of Edge Computing scenarios
 - Orchestration Edge/Cloud

- Does make sense talking of *Vehicular Edge Computing*?
 - What are the *enabling technologies*?
 - How to make **vehicles** collaborate with **vehicular edge entities** and **cloud computing** for more scalable services?
 - How to **secure** the vehicular edge computing?
