MIR³
September 24-25, 2018

Research Interests

- Distributed Internet, (De-)Centralization
 - *Infrastructures, Architectures*
 - *Building Blocks, Protocols*
- Internet Measurements and Analysis
- Censorship, Privacy, Anonymity, Security

Open Questions

- How to measure (de-)centralization?
 - *Terminology and degree?*
 - *Metrics and targets?*
- What are design considerations?
What are deployment challenges?
 - *Technical, economical, sociological, political, ...*
- Promising Solutions and Use Cases?
 - *How do they perform or scale?*
How can this be improved?
 - *How fast/reliably is consensus reached?*
 - *Particularly non-blockchain solutions!*
